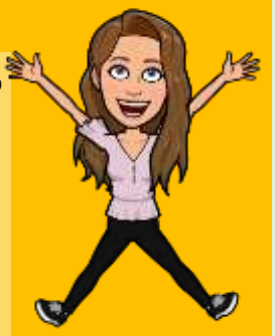
Year 3 Newsletter

Last week we were learning....



how to independently find a book of our choice in the library! The children were able to choose a book to take back to school and have been enjoying reading them in class.

We were looking at the positive and negative reasons as to why people should or should not live near a volcano. The children watched a video which took us through the 24 hours leading up to and during the Pompeii volcanic eruption to imagine the devastation to the city.

The children also located and named some bones in their body this week through some fun activities!

This week we will be learning....

It is our assessment week this week. The children will be showing off their new knowledge from Year 3 as they complete some maths and reading assessments. They will also be publishing their non-chronological reports based on robots to put on our 'Amazing Work Wall'. We can't wait to see how much they have learnt!

In French the children will be learning how to ask for different quantities of vegetables. They will be taking part in listening and speaking activity with their peers.

In Science the children will be learning how bones support us, protect our organs and allow us to move.

Don't Forget!

As the temperatures drop, please make sure that children have hats and gloves to wear at school, and that every item is labelled. Thank you
