Year 4 Newsletter

Magic Moments!

It was lovely to be back after the half term break with everyone refreshed and ready for new challenges.

The big story of the week was our Diwali activity – making our own Rangoli patterns with coloured rice. Did you see our colourful attempts? We were very proud of them!

We were sorting and grouping living things in science, making and following instructions for English and refining our subtraction skills and using them efficiently.

Finally, in Learning Challenge the children started the Mountains topic looking at how Mountains are formed.

A Peek at the Week...

This week in English, we will be looking at how much we already know. Showing off our grammar, comprehension and writing skills. We will be ending the week by writing a story based on a picture.

We will be looking at finding multiples as well as looking at multiplication and division in our maths lessons.

In science, the children will be finding learning about vertebrates and invertebrates. They will concentrate on the different types of vertebrates and understand the features of the different classes.

We will be identifying where certain mountain ranges are in the world during our Learning Challenge lessons.

Don't Forget!

Please remember that spelling books need to be returned to school on Monday morning ready for the spelling test and please ensure that the children are wearing a warm coat now as the weather is getting colder.

Over to you... Home Learning

Homework is set every MONDAY and due in the following Monday. This week Year 4 have the following online tasks to complete.
