Year 6 Newsletter

TWO SCHOOLS, ONE VISION

At Towers Schools we build our future together

Magic Moments!

In 6D Miss B has been amazed with the work the children have produced for their learning challenge research project. They have asked thoughtful questions and presented their research beautifully.

Miss Gad was very impressed with the knowledge 6G shared when we were learning about the importance of density in science this week. Children conducted an experiment and identified just how much denser water is to air! Well done 6G.

6L really enjoyed finding out about different career choices and sustainability during our webinar on Wednesday. We now know all about exciting jobs we could do in the future.

A Peek at the Week...

Let's take a look at the exciting week ahead!

In English this week, we are linking our writing to our Learning Challenge topic. We are revising the features of non-chronological reports, researching facts and presenting information in a booklet.

In maths, we are going to be creating our own theme park this week! We will be planning, budgeting and solving costing problems throughout the week to eventually create a unique theme park!

In Learning Challenge this week we are continuing our research projects about the United Kingdom. We have thought about what United Kingdom is like as a country focusing on: population, climate and where it is in the world. In the next few weeks, we will be learning about the Windrush era and why people from other countries have come to live here. We will also be reflecting on how immigrants bring a variety of skills of knowledge to the United Kingdom.
We are also continuing our rehearsals for the end of year production. The children are doing fantastically well at learning their part and honing their acting skills.

Don't Forget!

We ask you continue to read with your child in line with our expectations of four times per week and continue to record this in your child's reading diary.

Over to you... Home Learning

Homework is set every MONDAY and due in the following Monday. This week Year 6 have the following online tasks to complete:

MyMaths: log into your Mymaths to see your task set.

Spelling Shed: log into spelling shed and complete your spelling practice for the week.

CPG p. 90 - 91

Spellings

This week, our spellings are grammatical terms.

subject, object, passive, active, synonym, antonym, ellipses, hyphen, colon, punctuation
