Week beginning

07.05.24

Year 4 Newsletter

Last week we were learning....

In Science Year 4 have been learning more about electricity. They have been working towards gaining their certificates to qualify as junior electrical engineers. They have started working on a series of challenges including building and identifying the different components of a series circuit. They also had to construct a circuit which would enable a light bulb to light up.

The children also had a visit from staff at HSBC bank in Romford. They were informed of the various ways that people pay now and of how banking has changed over time. They also took part in a quiz which tested their knowledge of the price of various items and demonstrated their unity skills in working as a team to respond to various scenarios relating to spending and saving.

This week we will be learning....

We will be developing a range of descriptive and powerful vocabulary to describe a dragon, which we will be using in a future narrative. This will link with our core text 'How to Train your Dragon'

Our swimming lessons are continuing to challenge the children in a variety of skills. In other areas of P.E., the children are developing their striking and fielding skills, which is enabling them to work as a team.

In French we will continue to discuss animals we do and do not have as pets. We will role play conversations building on our current knowledge of conversational French.

Don't Forget!

A reminder to logon to TTRS for the weekly class tournaments.

Who will come out on top this week?

Home Learning...

Homework is set every MONDAY and due in the following Monday. This week Year 4 have the following online tasks to complete:

MyMaths: please complete the tasks set

Spelling Shed: please log in and complete the set tasks.

CGP – Pages 90 and 91

TTRS- our tournament starts on Monday. Who will be the highest scoring individual? Which class will win?!
