Week beginning

11.03.24

Year 4 Newsletter

Last week we were learning....

Year 4 have been busy putting their new found knowledge to work and making models of a river. They used a range of materials to create 3D models which they then labelled with the different features of a river including the source, mouth, meander and tributary. They also built on their knowledge of changing states in science by looking more closely at the properties of ice, recording the temperature as it melts and plotting their findings using a line graph before drawing their conclusions.

This week we will be learning....

This week is Careers week! The children will be taking part in a range of career based activities that immerse the children in creative ways of thinking about their own paths and futures. We will be meeting some local businesses and discussing how Skills Builder helps support everyone no matter their age in life!

We will be beginning to construct our very own mechanical car using a pulley system as part of our DT project this term! Children will be following a specification and working in partners to create a car.

Don't Forget!

Homework is due on a Monday so please remember to bring in your CGP book to mark in class.

Home Learning...

Homework is set every MONDAY and due in the following Monday. This week Year 4 have the following online tasks to complete:

MyMaths: please complete the tasks set

Spelling Shed: please log in and complete the set tasks.

CGP – Pages 20 and 21

TTRS- our tournament starts on Monday. Who will be the highest scoring individual? Which class will win?!
