Week beginning

24.06.24

Year 6 Newsletter

Last week we were learning....

About the world outside of Towers Junior School! We all enjoyed the Junior Citizen Day trip which explored a range of 'real-life' situations and it has given us the confidence to navigate any challenges we may face!

As Scientists recreating The Titanic this term, we enjoyed testing how density affects how buoyant a material is when in and out of water. We will be using this information to design our very own Titanics later this term – hopefully these ones don't sink!

This week we will be learning....

All about our secondary schools! We hope you all enjoy your transition days and tell us all about it when you return to school!
On Friday, our wonderful FoTFA has arranged for an inflatable day! We look forward to jumping around and having some fun in the sun!

We will also be continuing to rehearse for our upcoming end of year production: 'Towers does The Wizard of Oz". Please do remember to ensure you are learning your lines and thinking about what you can bring in from home for your costumes!

Don't Forget!

To ensure you are bringing in your script as we will be rehearsing for the production most afternoons during the week!

Home Learning...

Homework is set every MONDAY and due in the following Monday. This week Year 6 have the following online tasks to complete:

Spellings: List 34

MyMaths: Log in for your assigned task

Spellings

modal
